DATE: JAN 15 2018

TIME:

Dear Sir,

Good day!

Disaster preparedness is of paramount importance for all of us. Learning to perform cardiopulmonary resuscitation (CPR) is an essential component of this preparedness. RA 10871 "An Act Requiring Basic Education Students to Undergo Age-appropriate BLS Training" will ensure that we will all be ready to give emergency care when the need arises.

The Philippine Heart Association, having been instrumental in the drafting of this bill, through its members in the Northwestern Mindanao Chapter together with the trainers of the Department of Health Regional Office X would like to conduct a BLS training for the medical staff of the Department of Education of Cagayan de Oro City. A simplified training of "Hands-only CPR" for the teachers and other personnel may also be done. This will be the first step in putting into effect RA 10871.

We look forward to collaborating with you on this. This will put us a step closer to the goal of CPR-ready Philippines 2020. Thank you and more power.

Sincerely yours,

GERALDINE G. GARRIDO-PON, M.D.
Council on Cardiopulmonary Resuscitation
