Dear Sir,

Every year the Philippine Society of Otolaryngology Head and Neck Surgery conducts "Silip tenga program", which is also in line with the WHO hearing awareness advocacy program. This is an advocacy to let the people be aware of the hearing problems and how to detect them particularly in young children. Annually the Department of Otolaryngology Head and Neck Surgery conducts lectures regarding hearing awareness at our Out Patient Department.

In line with this, the Department of Otolaryngology Head and Neck Surgery has decided to extend this advocacy and adopt one Elementary School in the City of Cagayan de Oro as part of our annual advocacy. This would involved annual ear checkup and hearing screening to grade I students of that particular school for free.

We hope for a favorable response. Thank you and God bless.

Sincerely Yours,

  
Bernabe Mendoza, MD, FPOA, FPCS, FSOHNS  
Chairman, NMIMC Department of ORL-HNS
