This innovative endeavor aims to support the DepEd's Career Guidance Program (CGP) by developing evidence-based, age-appropriate, and culturally relevant teaching and learning resources for career guidance implementers.

Specifically, it intends to:

1. shed light on how elementary-level career guidance implementers provide career guidance activities for key stage 1 learners and determine the needed teaching and learning resources that career guidance implementers can use to equip key stage 1 learners with age-appropriate career development skills;

4. create career guidance teaching and learning resources specifically designed for key stage 1 learners.

The project consists of two phases: the research phase and the development phase. The *research phase* intends to review how elementary-level career guidance implementers provide career guidance activities for key stage 1 learners and determine the needed teaching and learning resources that career guidance implementers can use to equip key stage 1 learners with age-appropriate career development skills. The *development phase*, on the other hand, will focus on creating career guidance teaching and learning resources specifically designed for key stage 1 learners.

Within the context of the research phase, an online national survey will be conducted from **March 15 to 29, 2024** to gather information about how elementary-level career guidance implementers provide career guidance activities for key stage 1 learners.

In this light, all **registered guidance counselors (RGCs), guidance counselors, and guidance designates of DepEd elementary schools** nationwide are enjoined to participate in this online survey. The online survey can be accessed through this link https://www.research.net/r/cd4c_nationalsurvey.
