Dear Sir,

Studies have shown that individuals are more likely to listen to and believe information provided by their peers. Typically, peers exert influence over their peers regarding what is right and wrong and what is acceptable and not, especially when it comes to sensitive topics such as sexuality, reproductive health, and relationships. With this, the Community Improvement Division – Adolescent Health and Development Program will be conducting the Peer Educators' Training on November 11-12, 2024 and November 15-16, 2024 at Chali Beach Resort and Conference Center.

The said training aims to build the capacity of POPDEV CLUB Leaders of national high schools in delivering informal or organized educational activities aimed at developing the knowledge, attitudes, beliefs and skills of the adolescents and enabling them to be responsible for and protect their own health and become volunteers on their respective School-Based Teen Center.
